

Changing Fleet Type or Downsizing?

Let us help with a discreet fleet transition.

GRACEN JULES ✨

Gracen Jules is a venture creation and advisory firm focused on aviation transactions, including aircraft acquisition and leasing.

All our fleet transitions are very discreet, with confidential introductions to potential buyers. You can also choose to remain anonymous until the buyer is committed to a potential transaction based on your fleet specs. You are in full control of your fleet transition, introduction through transaction!

We specialize in discreet fleet transitions for flight training operators looking to convert fleet type or downsize.

We actively facilitate fleet transactions between large, expanding flight academies and local/regional flight schools that are potentially looking to downsize operations and/or convert fleet type. We can also coordinate lease assignments for your lessor-owned aircraft as part of a fleet transition program, and can facilitate a full M&A if you're looking to sell your flight school operation.

Reach out to explore how we can facilitate your fleet transition!
